Instructions and Key Functions of the Laptop

- Internet access is always available automatically within (Your Provider's Name) Wireless signal areas. The connection to the Internet is automatic whenever you turn you PC on. You do not need to connect to a wired or wireless network to gain access, although you can if you wish or in the event you are in an area not covered by the (Your Internet Provider's Name) Wireless signal.
- The Internet provided connects via company facilities to provide compliance with corporate computer use policies including content filtering and logging. The policy can be found at this address http://www.(Your Company's Name).com/policy/
- The laptop is configured with Microsoft Office, antivirus, your email, and shortcuts to the (Web Portal's Name) web site.
- The laptop is configured with a "remote control" service that allows the (Your Company's Name) IT Helpdesk to connect to your PC to repair, collaborate and support your laptop wherever you are. Please note: the laptop requires an (Your Company's Name) IT Administrator for any modifications to the system.
- If you need assistance with the laptop, printer or any application, please contact the (Your Company's Name) IT Helpdesk at (telephone number) during normal business hours (Monday to Friday, 8:00AM to 4:30 PM) or for critical after-hours support contact (Name of IT Professional), Supervisor, IT Services (telephone number). This number is an after-hours cell phone, therefore, if the call is not immediately answered, please leave a message and someone will return your call shortly.
- If you need assistance with (Web Portal's Name) application, you can reach their IT Helpdesk for technical support directly at 1-866-123-4567.
- (Your Company's Name) provides access to the Internet via (Your Internet Provider's Name) Wireless unlimited Internet use plan. If you cannot access the Internet, it is likely due to a signal problem. Please try relocating to a location with better cell phone signal.
- The laptop is preconfigured with the printer driver for your printer (either your own, or the provided equipment). You should just need to plug the cable from the printer into the back of the laptop.

To open the laptop:

• Slide the silver lever on the front of the case to the right and lift the display.

To turn on the laptop:

• Press the round power button on the top of the keyboard to power the system on.

{Insert Photo}

- When the legal disclaimer appears, after reading, click OK to agree and continue. This statement explains the (Your Company's Name) Computer Use Policy and signifies your acceptance. The policy is accessible at http://www.(Your Company's Name).com/policy/
- When prompted to login, your user name will already be entered or refer to the sticker on your PC. Enter the password (Type Password) to login. You may change this password if you wish.
- The PC will boot up and the desktop will appear as shown below

• The following programs are installed and accessible from icons on the Start Menu or desktop (as shown below)

Application	Function
